Our Programme aims to provide a small group aged 5 – 10 yo’s a centre based programme that stimulates, educates and also allows the children free play and “chill out” time during their holidays. We want children to have lots of “Play Planet” fun and also become aware of the world they live in.

Our daily programme is balanced with structured activities conducted by our carers, as well as external workshop professionals that visit us at our centre.

The comprehensive workshops will be based around “The Planet Earth” - the world we live in, science, nature and animals.

During the frequent free play sessions the children will have the option of playing in the 500sq of indoor play land , bouncy castles, climbing frames, gyro cars, mini basketball, or, have some down time in the dedicated vacation care “chill out zone”, this will comprise of 2 air conditioned rooms. One will be a **quiet place filled with the comfort of bean bags, books, puzzles, board games, lego and much more.** The second room will be set up for **craft activities and drawing.**

Our café will serve our children a nutritious and delicious morning tea, lunch and afternoon tea.
